THE AUTOMOTIVE LIGHTING EXPERTS

For more information about NARVA, please visit our website at
WWW.NARVA-LIGHT.COM

OUR CUSTOMERS COME FIRST

At NARVA, customer satisfaction is our number one priority. NARVA delivers high-quality automotive lighting products so that professionals can fully satisfy their customers' needs. With NARVA, garages and shops are able to deliver reliable products and quality service at an affordable price. NARVA has developed a comprehensive product portfolio in order to meet the needs of professionals all around the world.

Dedicated NARVA teams and distributors are committed to serving and informing our customers worldwide. We strive to efficiently and effectively meet all customer and market demands in all areas of our business.

Our sales offices, together with a central warehouse, provide attentive customer care and an efficient delivery service.

As today's roads become more congested, we believe it's necessary for all drivers to be able to afford a high-quality and reliable lighting solution for increased safety and visibility.

QUALITY LIGHTING AT AN AFFORDABLE PRICE, NOW AVAILABLE TO EVERYONE.

OUR AFFORDABLE QUALITY

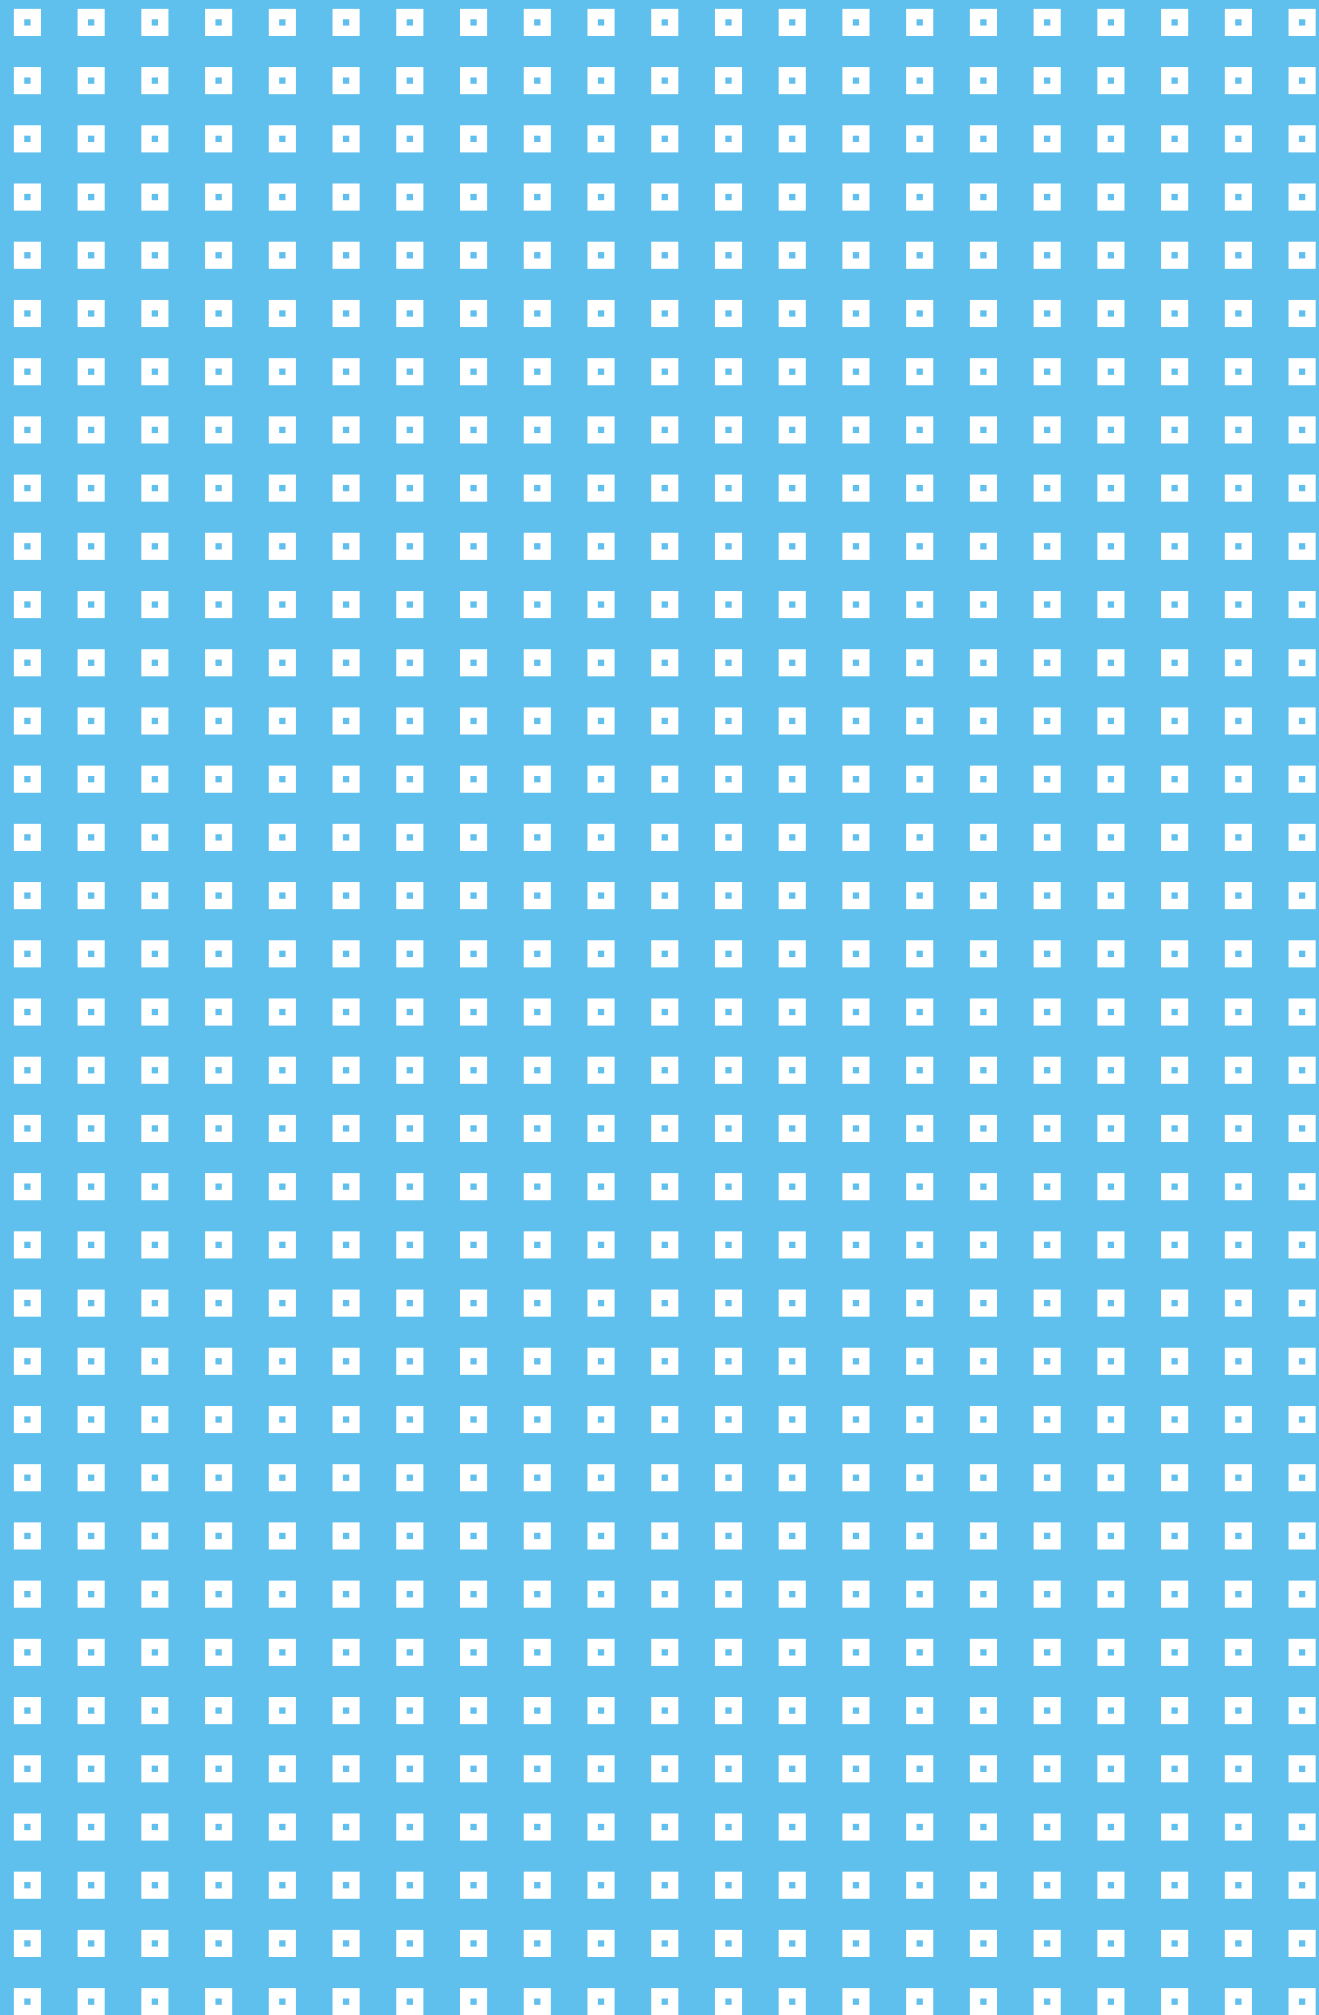

- / More than 70 years of automotive lighting experience
- / Comprehensive testing throughout the entire production process
- / Constant quality control of every lamp
- / Compliance testing and international certification processes, including IATF 16949, DIN EN ISO 14001, ECE R37, ECE R99
- / Ongoing investment in product innovation and new processes.

The quality of NARVA products and production processes are regularly controlled. Our products adhere to ECE* regulations and other legal requirements.

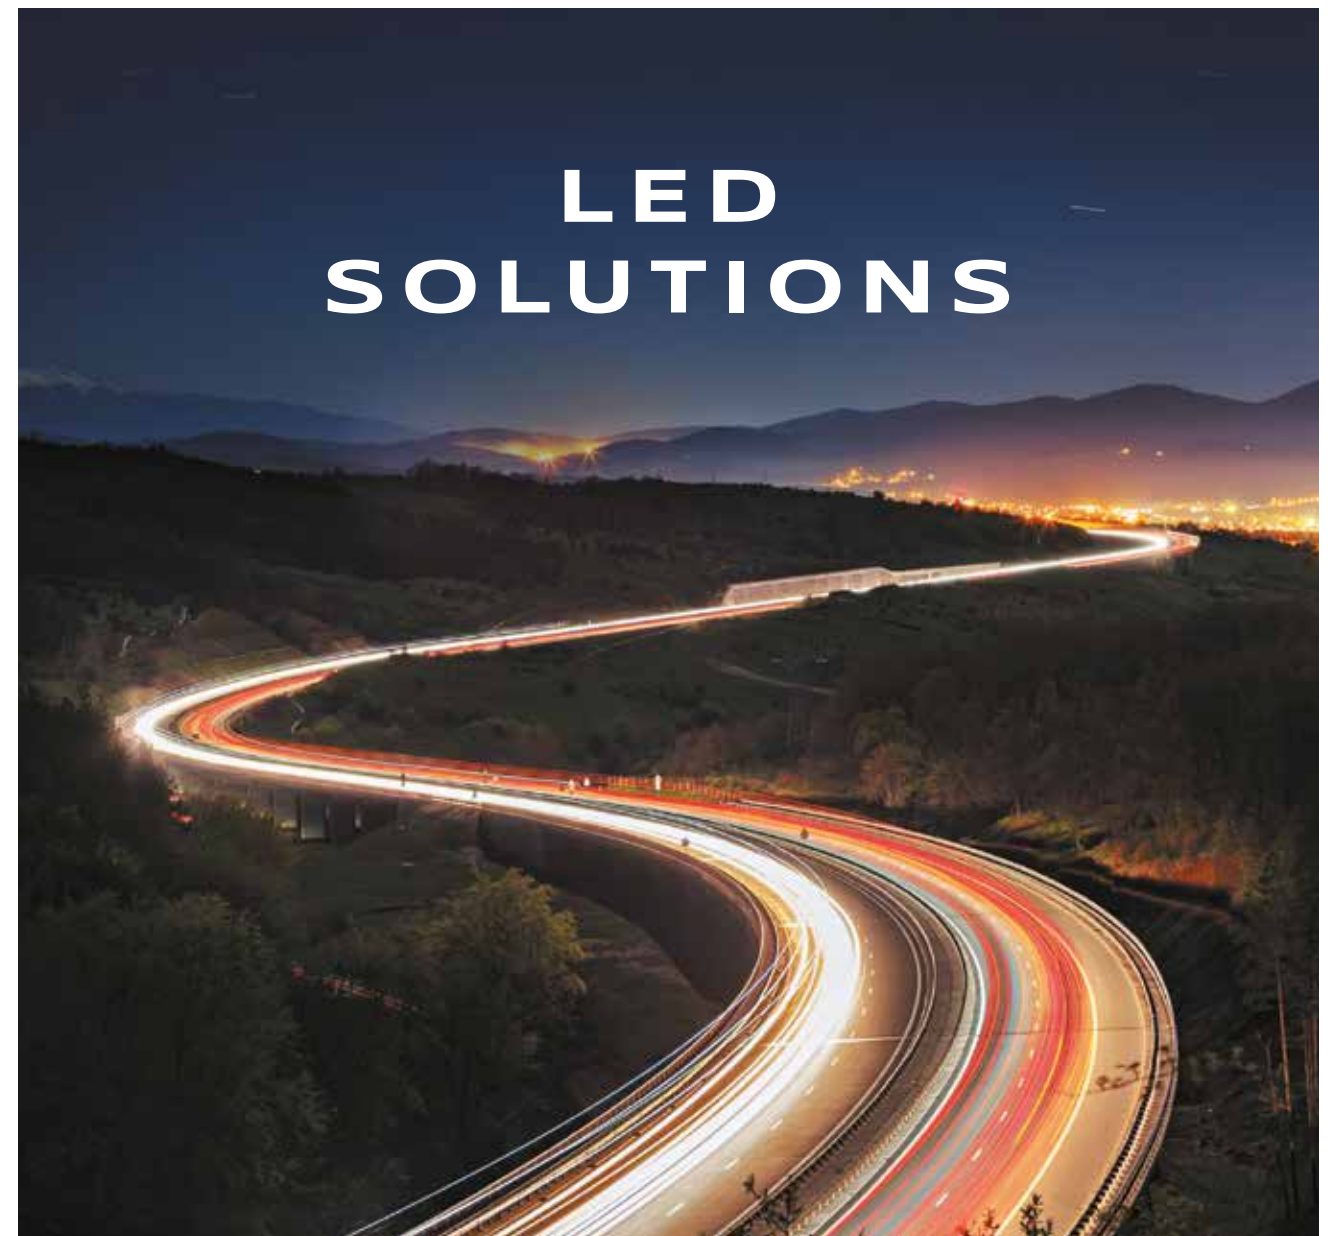

NARVA production, as well as marketing and logistics processes, are regularly controlled with the help of today's international IATF standards.

The ECE created international guidelines for the automotive industry and its suppliers in order to reduce trade barriers and increase traffic safety. Products that do not conform to ECE regulations cannot be sold in Europe. NARVA products adhere to ECE regulations 37 for filament lamps and 99 for gas discharge lamps that provide guidelines including measurements, luminous flux and power. The IATF 16949 is our proof of strong integration of safety and stability in our production, marketing and logistics.

*ECE = Economic Commission for Europe

12/24V LAMPS

LED retrofit bulbs offer drivers significantly improved visibility on the road and enhanced safety during night-time or adverse weather conditions. They consume less power than traditional bulbs, reducing energy consumption and potentially extending the vehicle's battery life. Additionally, with their longer lifespan, LED bulbs lessen the frequency of replacements, providing a cost-effective lighting solution for drivers.

It is your own responsibility to ensure that the use of the LED retrofit lights complies with applicable local legal requirements.

HEADLAMPS

RANGE PERFORMANCE ADVANCED

- +100% more light compared to the ECE R112 minimum for halogen bulbs
- Edgeless burner for 320° light emission without shadows
- Optimal beam pattern and super-focused light beam
- 6000 K cool white light
- Up to 2,000 hours lifetime with dual heat management technology
- Compatible with 12V and 24V electrical systems

RANGE PERFORMANCE

- Stylish 6000 K cool white and intense color tones
- High-performance LED chips
- Plug-and-play installation thanks to LED standard caps
- Polarity-free design (except. W5W, Fest38mm, Fest43mm)
- Up to 3,000 hours of lifetime
- 12V rated

CONVENTIONAL SOLUTIONS

REPLACEMENT

STANDARD

Our Standard range represents the best value, combining reliability with economy. For drivers seeking the greatest price/performance ratio without sacrificing safety, NARVA Standard is the right choice.

DURABILITY

LONG LIFE

Our green range has been especially engineered for long lifetime. Lasting twice as long as standard lamps, these long-lasting lamps will not have to be replaced as often which results in less maintenance combined with a minimal impact on the environment.

BETTER VISION

RANGE POWER 50+

RANGE POWER 50+

Offering up to 50% more vision than a standard lamp, our Range Power 50+ delivers a longer light beam for even greater brightness. It's engineered for drivers to see farther and more clearly for greater safety.

RANGE POWER 150

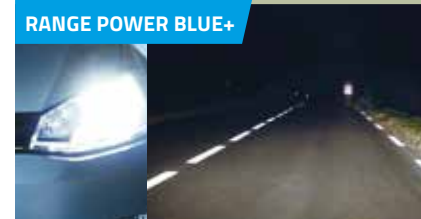

RANGE POWER 150

The new Range Power 150 delivers up to 150% more brightness. The powerful light beam allows drivers to see farther. A special burner design creates a higher lumen output for increased safety and greater performance.

STYLING

RANGE POWER BLUE+

RANGE POWER BLUE+

Offering up to 50% more vision and up to 30% stylish, cooler light, our Range Power Blue+ is engineered for drivers to see farther and more clearly for greater visibility and safety.

RANGE POWER WHITE

RANGE POWER WHITE*

Our Range Power White offers a bright and stylish white light. The stylish xenon effect obtained by the 4500 K color temperature offers your car an eye-catching look close to daylight.

RALLYE

RALLYE*

Offering high power for more visibility, the Rallye range is engineered for drivers to see farther and more clearly.

*Non-ECE-homologated. Cannot be sold or used in Europe.

XENON LAMPS

WICH LAMP TYPE
DO YOU NEED?

LOW BEAM
HIGH BEAM

Producing a brilliant, white light and a precise beam, the **NARVA** xenon range offers greater visibility for greater safety.

NARVA xenon technology means long lifetime and bright light on the road. Featuring a special UV-blocking quartz glass, this lighting solution provides great visibility maximum safety by allowing drivers to see even farther.

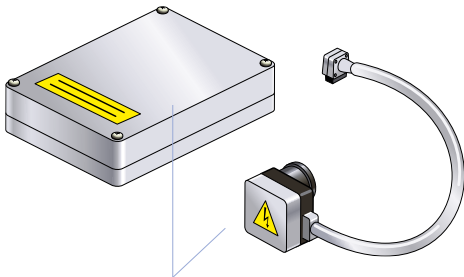

UNDERSTANDING XENON
LIGHTING SYSTEMS

Main benefits

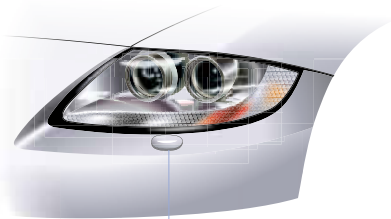

- / Brilliant and powerful light projection on the road
- / Light color and intensity close to daylight
- / Extra-long lifetime
- / Low power consumption

Xenon HID
(High Intensity Discharge) lamp

Electronic ballast
and high-voltage starter

Complex optical system
with automatic level control
and power-wash system

PACKAGING

Understanding the NARVA ordering code

Packaging type code
Ordering code

NARVA Special packaging

Our packaging is used for both Special double packs as well as for Spare kits. Product information is simply and clearly displayed on the back to help consumers make an informed decision.

The attractive packaging design provides a clear view of the products inside and its robust construction protects the content during shipping as well as in-store.

- / Economical
- / Reduces waste
- / Clear information
- / Robust construction
